Welcome to the 80th
2024 AGM
and Conference

President's Message

As I write this message, not all of our 2024 statistics have been submitted. However, I am prepared to go out on the proverbial limb and predict that all our auxiliaries have experienced significant gains over the past year.

The 'Capital Funding' aspect, several of which have been highlighted in this report, tells only one part of our annual story. While it certainly remains our main reason for existing - we are so much more!

Those auxiliaries that are growing their membership and accommodating new energy and ideas have not only boosted their total volunteer hours but also increased the available healthcare dollars to their community. By providing significant student bursaries, as well as by supporting community outreach programmes, we continue to enhance our vital role as healthcare supporters whether in a small town or a larger city.

It is important to not just tell our story once a year! Circulate this report with pride for what volunteers can accomplish. Often, you are the biggest 'little' business in town.

Thank you for sharing your many accomplishments and your generous friendship over the past two years. It has been a pleasure to serve with you and for you!
